

Petition to the Legislative Assembly of Ontario
Request for Public Inquiry into the medical evidence

Important: Please print name and address and then sign. Only Ontario residents are eligible to sign this petition. Petitioners may be under the age of majority to sign.

Whereas all Ontario’s drivers are legislated under the Insurance Act (Ontario) to attend Insurer Medical Examinations (IMEs) when making a claim for injuries in a Motor Vehicle Accident (MVA); and

Whereas there is a flawed process by which medical experts are selected by Ontario’s insurance companies and a failure to ensure that only objective and qualified medical evidence is submitted by practicing healthcare providers in good standing with their regulatory Colleges; and

Whereas the flawed and partisan medical reports are used in the decision process and have caused a significant and costly backlog in our courts for victims who are without treatments and other resources.

THEREFORE WE the undersigned, petition the Legislative Assembly to request a Public Inquiry into the medical evidence used to delay and deny injury claims in Ontario’s courts and administrative tribunals.
