To the Registrar

FAIR is a not-for-profit association of Ontario's car accident victims and their supporters.

On behalf of our members and the public I would ask that you investigate Dr. Kerry Lawson whose work was the focus of the National Post article [Insurer's father-daughter psychology team blasted for dodgy testing of severely hurt motorcyclist](#) on November 16, 2017.

Additional information on this psychologist's past treatment of Ontario's vulnerable accident victims with respect to comments from Ontario's judges and adjudicators about the poor quality of Dr. Lawson's work product can be found at: <http://www.fairassociation.ca/wp-content/uploads/2017/11/Lawson-Kerry-Psychologist1.pdf>.

Ontario's car accident survivors face many challenges in their recoveries and access to treatment resources relies on accurate, quality, qualified medical opinion reports. The quality of life for these vulnerable patients depends on it.

We hope you'll take steps to ensure that the concerns of Ontario's accident victims are taken seriously. Our goal is that steps will be taken to protect MVA victims and the public from your member whose impartiality has been questioned on more than one occasion.

Sincerely,
Rhona DesRoches
FAIR, Board Chair
