

Promise Of COMMITMENT

A Safe Driver Or Passenger Commitment Between Two Individuals

This contract is meant to reflect the promise we are making to each other to not put ourselves at risk. It is not meant to be legally binding but is meant to express the importance of safety first.

Both individuals agree to seek safe, sober transportation home if ever in a situation where they've had too much to drink or are impaired by alcohol or drugs.

Both parties agree to arrange safe transportation at any hour and from any place – no questions asked and without judgment – if either party is impaired or find themselves in a situation where the person who is driving them is impaired by alcohol or drugs. Both parties agree to discuss the situation at a more appropriate time.
